

# GLASS & WINDOW SYSTEMS FOR VEHICLES THAT WORK

AT TAYLOR MADE GLASS SYSTEMS... we provide complete glazing solutions for mass transit vehicles, agricultural, construction & mining equipment, emergency vehicles and class 8 trucks. In short we provide glass & window systems for vehicles that work.

Our ability to form complex shapes while maintaining superior optical clarity sets us apart from the competition, but we don't stop there. We continue to add state of the art cutting, drilling and painting equipment necessary to out pace the constant evolution in customer designs. Our unique capabilities have made us the ideal partner for some of the worlds leading OEMs.

To understand and support our customers needs, we employ an industry leading sales and engineering team committed to developing glass & window systems that meet or exceed the design requirements of each customer and every application.

A solid 3D design model is crucial for our customers to understand the products we supply and how they integrate into the vehicle or machine being developed. To accomplish this, Taylor Made holds 12 Pro/E licenses and 18 Auto CAD licenses, including Pro Mechanica & FEA Analysis, all in house.

## FULLY TEMPERED CLEAN CURVE GLASS

- ★ Cylindrically-bent glass.
- ★ No tooling required to manufacture.
- ★ Radius: min=150", max=flat
- ★ Size: max=58" x 80"
- ★ 5-6mm tempered safety glass.
- ★ Custom frit design available.

# Taylor Made GLASS SYSTEMS™

## FLUSH MOUNT DRIVER SIDE WINDOW

- ★ Unique, innovative flush glaze design.
- ★ Flush appearance of operable window matches the flush design of side body windows.
- ★ Heavy-duty system utilizing 5mm fully-tempered glass.
- ★ “Hold-open” latching feature.
- ★ Built in drainage system.
- ★ Stainless fasteners for durability.

## SIDE BODY TRANSOM WINDOW SYSTEMS

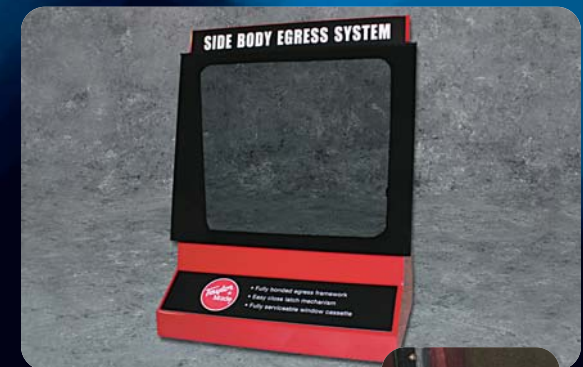

- ★ Flush appearance of operable transom window blends in with the flush look of the entire side window system.
- ★ Just one piece of glass, with cut out for operable transom window plunge-cut into the main glass panel – *no appliqué needed!*
- ★ Integral variable resistance toggle hinge.
- ★ Exclusive failsafe closed latch mechanism.
- ★ Stainless fasteners for durability.

## CONVENTIONAL DRIVER SIDE WINDOW

- ★ Unique mar-resistant polycarbonate applique is made to closely mimic dark side body windows.
- ★ Fully serviceable sliding units — quick and easy service right from inside the bus.
- ★ Integral “hold-open” latch system.
- ★ Stainless fasteners for durability.

## SIDE BODY EGRESS WINDOW SYSTEMS

- ★ Flush mount window design.
- ★ Integral variable resistance toggle hinge.
- ★ Exclusive failsafe closed latch mechanism.
- ★ Stainless fasteners for durability.

## FRAMELESS EGRESS WINDOW

- ★ Flush look.
- ★ Dual, heavy-duty latching mechanism.
- ★ 5mm tempered safety glass.
- ★ Easily serviceable. “S” hinge design is easy-on, easy-off.
